Put It Down: Focus on Driving

The Florida Department of Highway Safety and Motor Vehicles (FLHSMV), with its division of the Florida Highway Patrol (FHP), advises all motorists that beginning October 1, motorists can be stopped for not operating a motor vehicle in a hands-free manner in a designated school crossing, school zone or active work zone area.

Section 316.306, Florida Statutes, is a prohibition on using wireless communications devices in a handheld manner in school and work zone. A person may not operate a motor vehicle while using a wireless communications device in a handheld manner in a designated school crossing, school zone or active work zone area. Active work zone, as it pertains to Section 316.306, Florida Statutes, means that construction personnel are present or are operating equipment on the road or immediately adjacent to the work zone area.
